

HIGHLY EXCITING EVENTS ON CARD FOR FINAL DAY

(Continued From First Page.)

ing, however, a Roman candle, still blazing, fell on the roof pole of the tent of the American Cedar Machine Company, and the tent was soon wrapped in flames. Before the firemen could reach the scene the tent was destroyed, and some of the machinery inclosed within was badly damaged. T. W. Noble, general agent of the company, of Lynchburg, reported his loss to the Fair management, and asked for reimbursement.

The attendance of yesterday was said to compare favorably with that of two years ago. Last year the Fair was interrupted by heavy rains on the last two days, and the crowd dwindled away to practically a few hundred people. This year, however, the weather conditions, except for threatening signs of the first two days, have been exceedingly favorable, and the showers have come at night. The rains made the race-track heavy, but otherwise did not interfere with the program and did not affect the attendance.

Soon to Fade Away.

At 12 o'clock to-night the show people and the exhibitors will pull up pegs and go themselves elsewhere. A special program has been arranged for to-day. Among the races will be the running class, with two steeplechases. Late in the afternoon W. F. Gordon, in an automobile, will race against Howard LeVan, in his Curtiss biplane over a five-mile course. Following this will be given a chariot race, four horses abreast, around the track. All the birdmen will be in the air at the same time, one flying above the other and over and around the grounds. LeVan will attempt to close his exhibit flights with an aerial "stunt" he has not dared before. To-night there will come the most dazzling spectacle of the week in the pyrotechnic line.

At 10 o'clock the stock parade, with all the prize winners on exhibition, will make its final tour. The awarding of ribbons has been completed, the stock exhibits, and the other awards will have been completed when the great fair closes down to-night.

Farmers Make the Fair.

Henry Fairfax, president of the Virginia State Fair Association, stated again yesterday that this is the greatest fair ever held in Virginia, and that the exhibits are in larger quantity and more varied than they have ever been. He stated that he is particularly pleased with the attendance, which, for the five days just gone, has exceeded that of any preceding year. "And next year," he said, "we will have a better exhibit still. More interest has been created among the farmers, and they are here, with their exhibits, by the thousands. The farmer is beginning to learn the value of a fair. He comes here with his exhibits and shows what he can do and what he has done, and turns to his neighbor and learns a new lesson. The farming class is the one most interested in the success of the fair, and now that we have the farmers with us we are assured of success."

Street Car Figures.

Yesterday's attendance of from 25,000 to 30,000 people at the State Fair brings the grand total for this year far ahead of any previous fair, making the financial success of the undertaking certain, and paving the way for the improvements already projected, and which it is now anticipated will be accomplished before another year. The best program of the week is scheduled for to-day, and with clear weather, an attendance of from 30,000 to 40,000 people is predicted.

The Virginia Railway and Power Company hauled from the Fair Grounds yesterday a total of 15,624 people. On Friday of last year's fair, there was an almost continuous rain storm, and the total attendance was only 4,503. The rain continued on Saturday and practically ended the fair, so that whatever the attendance to-day, it will be in excess of last year.
